

COMING SOON IN EARLY OCTOBER!

New and Exciting Enhancements to Online Banking

In addition to up-to-date features and functionality, our online banking system will boast a fresh look and feel, and promises an even more user-friendly format. Our new and improved Online Banking takes fewer clicks, thanks to our enhanced landing page where most commonly used functions are accessed from the home page. You can pay bills and make person-to-person payments. Plus, now you can view a snapshot of your spending habits in an easy to read pie chart. As always eSTAR allows you to review account balances, transfer funds between accounts, research statement history, and more!

Here are the **top features** with comparisons between the two versions to assist you in learning about this upcoming enhancement:

- ✓ Updated Login Page (Username and password on same page)
- ✓ Simplified Home Page (Access account balances, transfers, bill payments, etc.. from the home page)
- ✓ Intuitive Navigation
- ✓ Transaction History Layout (Combined transaction history onto a single page/view)
- ✓ Simplified and Improved Transfer Feature
- ✓ Bill Pay Integration (Bill pay no longer launches in a second browser window)
- ✓ Responsive Design (Provides optimal customer experience on a tablet, phone, desktop or laptop, regardless of screen size, resolution, and orientation)

We hope you enjoy these new features and would like to thank you for banking with North Star Bank.
